

IMPORTANT INFORMATION

For Our Member Schools

- Thank you for your patience as it took us longer to make the tournament assignments this year. Due to software changes at the OHSAA, the state office had difficulty providing us with the school participation reports we needed to set-up the tournament assignments. In fact, you should look closely to be sure your teams are listed correctly. If they are not, follow these steps: 1.) Go into your myOHSAA account and double-check that each of your teams are listed correctly for each sport. 2.) If any changes are made or need to be made, contact Brenda Murray at the OHSAA. 3.) If any changes are made to cross country, please email Brenda Frankart, bfrankart@liberty-benton.org, to be sure the adjustments are made to our district cross country sites. We are sorry for the added hassle while we adjust to the software changes. Without these extra steps, we will not be notified if a school is adjusted to a division, and we want to do our best to serve our member schools and get them in the proper tournament assignments. Again, thank you for your help and patience!
- Remember, this is the first year we are reverting back to separate enrollment counts in cross country so things were assigned much differently than last year.
- As a result of the changes, we are now required to keep teams together at the same site, even when they are split between different divisions. We have done that accordingly, and our most centrally located site contains the Division I and II schools.
- We now also have unequal qualifiers. This means that we needed to place the proportionate number of schools in a specific race at a specific site based upon the number of qualifiers coming from that location. The good news is that all of our schools are staying in the Northwest when they advance to the Regional in Tiffin.
- Good luck to all of you in your Fall sports seasons!

(These tournaments were updated as of: August 11, 2016.)
